## SUMMARY

---

Product professional with 2+ years of experience combining enterprise SaaS problem-solving at Vtiger CRM with zero-to-one product work at Pathwisse. Experienced in customer discovery, roadmap prioritisation, PRDs, role-based workflows, product validation and SQL. Led research across five colleges and contributed to the onboarding of four institutions.

## SKILLS

---

**Product:** Discovery, User Research, Problem Definition, PRDs, User Stories, Prioritisation, Roadmapping, Product Metrics, UAT

**Analytics:** SQL, Excel, Power BI, Funnel Analysis, Usage Analysis, Dashboarding.

**Execution:** User Flows, Wireframing, Prototyping, Acceptance Criteria, Stakeholder Management, Figma, Jira, Notion, Postman.

## EXPERIENCE

---

### Pathwisse | Product & UX, Core Team (Part-time)

Mar 2025 – Present

B2B student success platform connecting academic management, career development and placement preparation across student, faculty, HOD and management portals.

- Led discovery across **5 colleges with 160+ stakeholders**, including 20+ HODs, 40 faculty members and 100+ students, identifying that readiness visibility was a more urgent institutional problem than further content expansion.
- Used these insights to prioritise **student tracking and intervention**, focusing the roadmap on progress signals, faculty-assigned student views and department-level readiness visibility.
- Defined workflows, permissions and product requirements across **four role-based portals**, owning PRDs, user flows, acceptance criteria and UAT for career roadmaps, readiness practice, progress dashboards and an AI mock-interview voice agent.
- Supported institutional outreach and product demonstrations across a broader college pipeline, contributing to the conversion and onboarding of **4 colleges** while translating market feedback into workflow and roadmap improvements.

### Vtiger CRM | Business Analyst | Bengaluru

Jan 2024 – Present

- Partnered with **20+ enterprise customers** to uncover workflow and adoption challenges, translating recurring insights into **20+ NextGen enhancement proposals**, with **3 shipped to date**.
- Redesigned **8+ sales, marketing and support workflows**, cutting manual steps by approximately 30% and improving requirements-to-UAT turnaround.
- Designed reporting hierarchies, role permissions and record-visibility models supporting 300+ users across six hierarchy levels, improving access consistency and data governance.
- Developed the GTM and onboarding approach for **Startup Perks**, defining the target segment and value proposition across **25 priority startup accounts**, contributing to **12 qualified leads and 5 activations**.

## SELECTED PRODUCT WORK

---

**Pathwisse:** Discovery-led student success platform covering roadmap prioritisation, role-based workflows and four-college adoption. [[Case Study](#)].

**Agoda Booking Assurance:** Product solution for reducing booking uncertainty through prioritisation, success metrics and experiment design. [[Case Study](#)].
